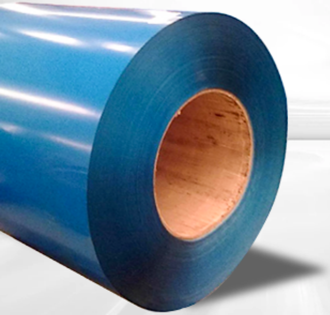
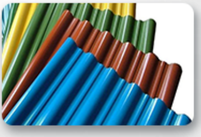
Global Leading Manufacturer of Coated Steel & Roofing Solutions



LEADER IN STEEL INDUSTRY

☑ MULTI-COLOR OPTIONAL
☑ MANUFACTURER CUSTOMIZATION



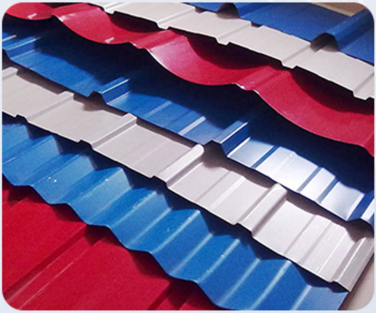
山东赢亿钢铁有限公司
SHANDONG YINGYI STEEL CO.,LTD

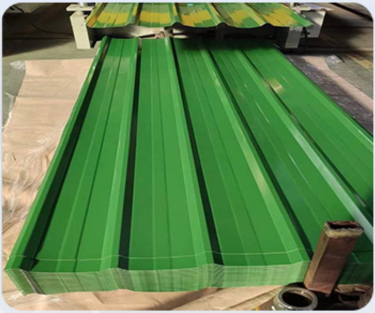
Shandong Yingyi Steel Co., Ltd. is a leading high-end manufacturing supporting service enterprise in the field of metal processing in China.

At present, Yingyi has established a number of processing service centers and manufacturing service bases across the country, with customers covering multiple industries. Shandong Yingyi Steel Co., Ltd. is a large-scale carbon steel and stainless steel production and sales company. It is the first-class agent of many domestic steel mills. The company's production center is located in Shandong, with a number of imported processing equipment, which can provide a variety of personalized services according to customer needs. The company's warehousing center provides 24-hour service and can handle the cargo distribution business for customers. Shandong Yingyi Steel Co., Ltd has set up branches in many places, with sufficient inventory, which is convenient for local customers.

With the strategic goal of building an "internationally leading manufacturing supporting enterprise", Yingyi is committed to building an automated and intelligent advanced processing service center cluster and high-end manufacturing supporting service base, giving full play to the "one-stop" service of steel material resources and the top ten processing With the advantages of technology platform, it provides a "package" of supporting service solutions for advanced manufacturing industries, continuously expands and extends the industrial chain, and enhances the value of the industrial chain.

COLOR-COATED STEEL SHEET





Description-Color-Coated Steel Sheet

Standard:ASTM AISI JIS DIN GB

Material:ASTM/AISI/SGCC/CGCC/TDC51DZM,etc

Thickness: 0.12-0.50mm customizable

Length:Customization

Width：200mm-2000mm

Surface Treatment：Galvanized,PVC,black,color painting,transparent oil,anti-rust oil

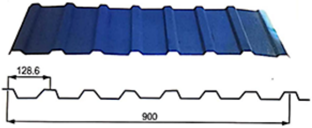
Delivery Time：15-21 days

Color：Standard RAL Color

Grade：SGCC/CGCC/DX51D+Z

Package: Standard Sea Worthy Package

Application: Home appliance, building material, roofing sheet,etc.



10-128-900B						
Number of reinforcement	Thickness of the steel plate	Number of wave	Number of layer	Height	Effective width	Feeding width

COLOR COATED COIL

Description-Color Coated Coil

Standard:JIS G3302/ JIS G3312 /ASTM/ A653M/ A924M/ 1998 ,etc

Material:SPCC SGCC CGCC ST01Z DX51D A653

Thickness: 0.125-2.0 mm

Length:Customization

Width:20-1500 mm,Normal width is 914/1000/1219/1250/1500 mm

Technique： Pre-painted, Hot-rolling,Cold-rolling

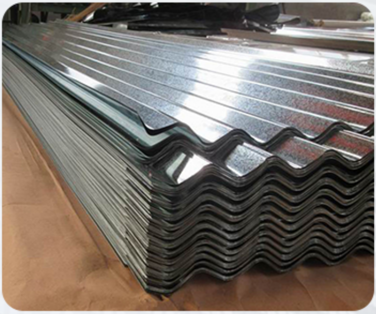
Color Options： RAL color system or as customer color sample

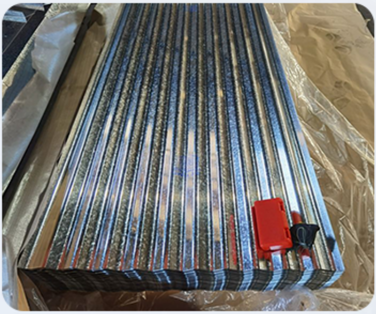
Coil weight： 3-8MT or as required

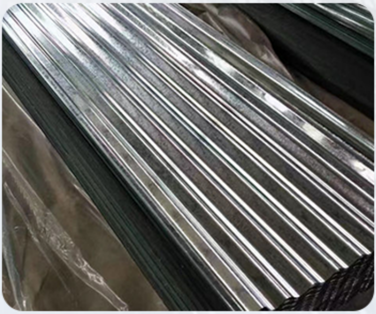
Delivery time: Around 7-25 days after TT payment or L/C arrived

Application: making pipes, cutting sheets, making small tools, making corrugated sheets, making container, making fences

CORRUGATED STEEL PLATE







Description-Corrugated Steel Plate

Standard: AiSi, ASTM, bs, DIN, GB, JIS

Material:SPCC SGCC CGCC ST01Z DX51D A653

Thickness: 0.12-3.0mm

Length:1400-1799mm, 1800-2000mm, 2001-3600mm

Width:600-1250mm

Grade： DX51D or as request

Type： Steel Plate, Cold Rolled Steel Sheet

Coil weight： 3-8MT or as required

Delivery time: 21 Days

Application: construction for roofing

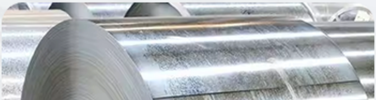
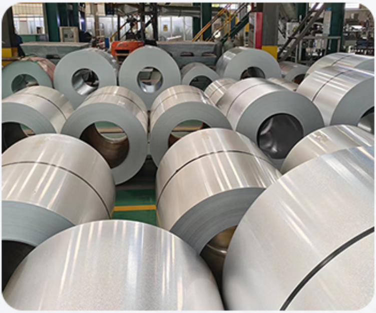
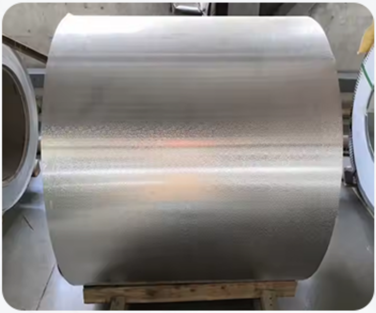
GALVANIZED COIL







Description-Galvanized coil

Standard: JIS / EN / ASTM Standard

Coating:AZ40-AZ150

Alu-Zinc Coating: 20-165g/m2

Sizes: Thickness: 0.23mm - 3.0mm Width: 900mm-1250mm

Surface Treatment: Chromate Treatment, Anti-fingerprint

Coil Weight： 0.5 Tons - 25 Tons

Technique： Other, Hot Rolled-Cold Rolled-Galvanized Surface Treatment

Application： Other, Structural use ,roofing, Commercial Use, Household Appliance, Industry

ALUMINUM ZINC COATED COIL

Description-Aluminum Zinc Coated Coil

Standard:AS1397:2011 / ASTM A792

Material:Q195/Q235 low carbon steel

Surface Treatment: Regular spangle, Chromated, Dry,Anti-finger, Un-oiled, Oiled

Tensile strength:Soft-G250/Normal-G350/Hard-G550

Thickness:0.13-3.0mm

Width： 750-1500mm

Zinc coating： Z40-Z250

Coil weight： Max.3.5-5tons

Usage: Roofing plate/roofing sheet

Hardness grade: SGCC SGCH DX51D+Z
